Navigable Waters of the United States in the Fort Worth, Albuquerque, and Tulsa Districts Within the State of Texas

December 20, 2011

For purposes of Section 10 of the Rivers and Harbors Act of 1899, navigable waters of the United States are those waters that are subject to the ebb and flow of the tide and/or are presently being used, or have been used in the past, or may be susceptible for use to transport interstate or foreign commerce (33 CFR 329.4). Navigable waters include lakes and other on-channel impoundments of navigable rivers. Under Section 10, the U.S. Army Corps of Engineers (USACE) regulates any work in or affecting navigable waters of the United States. The following waters are considered to be navigable waters of the United States and thus fall within the jurisdiction of the USACE in the Fort Worth, Albuquerque, and Tulsa districts. Navigable waters in the Galveston District are determined on a case-by-case basis and, therefore, are not included in this list. The USACE district(s) within which these navigable waters lie are indicated as: SWF (Fort Worth District), SWT (Tulsa District), and SPA (Albuquerque District).

- Angelina River:** From Sam Rayburn Dam in Jasper County upstream to U.S. Highway 59 in Nacogdoches and Angelina counties and all USACE lands associated with B.A. Steinhagen Lake in Jasper and Tyler counties, Texas. [SWF]
